

## If your business still has to interact with others.

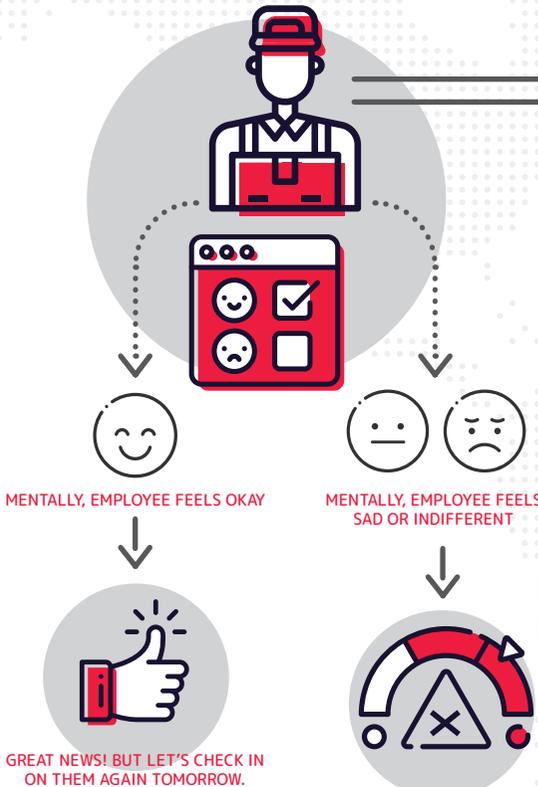

Businesses that remain open during the COVID-19 pandemic need to implement screening protocols to ensure the safety of both their staff and visitors. SPR has automated this process with a simple health and wellbeing survey that can be quickly deployed to your workforce, alerting you in real-time of any potential risk.

### SITE PANDEMIC RESPONSE

#### User submits a daily physical and mental health survey.

Daily health and wellness surveys can be sent to staff individually, or in bulk. The web-based survey consists of a short, easy to use health questionnaire, and includes a mental health component, allowing you to ensure the wellbeing of your workforce.

Your dashboard displays all results in real time, flagging your team members as high - low risk. Enterprise customers can tailor their questionnaire to the needs of their business and employees.

#### Low risk physical health screen score

SPR software approves the worker automatically.

#### Medium to high risk physical health screen score

SPR dashboard alerts management and recommends investigation.

#### Medium to high risk mental health screen score

See trends across each of your employees and act early. Integrate data with your company EAP or receive manager alerts, and ensure you check in on your employee personally.

#### Employee goes to work

The worker/user notified by the SPR software that they are cleared to attend work.

EMPLOYEE CLEARED BY MEDICAL AND/OR COMPLETES QUARANTINE PERIOD

#### Employee seeks medical advice / quarantine

If the manager declines attendance, the employee receives recommendation to seek medical advice and/or remain isolated for 14 days.

APPROVED

DECLINED

#### Management investigates

Manager works to determine risk profile and approves or declines work attendance at the click of a button.
